

PERMANENT MAGNET

Made in India which are very best in terms of quality, accuracy, reliability & cost.

Available in various types like permanent suspension magnet, Electro magnet, etc.

Industrial magnet play a vital role in eliminating tramp metal and protecting downstream equipment.

Magnetic separator quality	Ferrite
Lift capacity	More than 10 -25Kg. iron, depending of the iron piece surface.
Gauss power	1400– 2500 Gauss at 300 mm.
Placing of the magnet	Hang cross the belt
Type of cleaning	Manual

Applications: coal industries, Chemical industries, Aggregates plants, Mineral processing, Paper and pulp industries, Wood industries, Cement industries Etc.

OVER BAND MAGNETIC SEPARATOR

Made in India which are very best in terms of quality, accuracy, reliability & cost.

Available in various types like permanent suspension magnet, Electro magnet, etc.

Industrial magnet play a vital role in eliminating tramp metal and protecting downstream equipment.

Magnetic separator quality	Ferrite
Lift capacity	More than 15-20Kg. iron, depending of the iron piece surface.
Gauss power	3900 – 4200 Gauss
Operating Height	300mm
Type of clean	Self

Applications: coal industries, Chemical industries, Aggregates plants, Mineral processing, Paper and pulp industries, Wood industries, Cement industries Etc.
